

The American School of Murcia's commitment in the face of lockdown measures

In the face of the state of alarm and lockdown arising from the public health crisis we are experiencing, the AMERICAN SCHOOL OF MURCIA is committed to both our families' educational and economic well-being.

ECONOMIC COMMITMENT: 50% discount on the monthly fee Distance learning is not as efficient as on-site learning due to, among other factors, the lack of interaction with classmates, greater obstacles to maintaining work routines at home, etc.

EDUCATIONAL COMMITMENT: Thanks to our online platform Alexia, we can ensure the same levels of individualized teaching and oversight. Likewise, our families and students have the support of professionals, including psychologist, to help them with any issue or problem. Our online platform ensures:

1. Teaching continues as usual
2. Continuous contact in the face of each family's needs
3. Online tutoring sessions
4. Access to content from international curricula
5. A private channel with exclusive recordings of the professors and professionals from the AMERICAN SCHOOL OF MURCIA to compliment the explanations given in virtual classes whenever needed.

This is our commitment throughout the current state of alarm as well as any future states of alarm that may arise in the future. While we hope none of this is necessary, it provides our families with the peace of mind that they can count on their school no matter what the circumstances.

The American School of Murcia is an educational community.

Our response to this crisis is the same social commitment and responsibility that we instill in our students.
